

MECHANIC IN LOGISTICS MAINTENANCE (F/M/X)

2-shift operation

Blum manufactures lift, hinge, pull-out and pocket systems for furniture that are supplied to over 120 markets. Did you know that we have fully automated warehouses with a height of over 30 metres? This is how we ensure the perfect movement of our goods - from the delivery of raw materials to production and the delivery of our finished products.

YOU

- ... maintain our logistical facilities (conveyor systems, high-bay warehouses, fully automated loading and unloading systems, ...)
- ... document maintenance and safety inspections
- ... optimize our facilities and are responsible for spare parts management
- ... collaborate with internal and external partners and carry out your tasks across various sites in Vorarlberg

WE

- ... value a good education – you have successfully completed a mechanical education
- ... offer challenging and demanding tasks – relevant professional experience is advantageous
- ... work at extraordinary heights – so being free from vertigo and comfortable performing repairs at greater heights is essential
- ... are seeking a team member who enjoys working collaboratively, is open to others, and is flexible
