

GROUP LEADER IN SURFACE TECHNOLOGY - PRODUCT TECHNOLOGIES (F/M/X)

The family-owned company Blum manufactures flap, hinge, drawer, and pocket systems that are used in furniture all over the world. Did you know that our department “Product Materials” deals with over 200 different materials and surfaces, as well as numerous technologies and processes? Our specialists accompany our products in all material-related matters throughout their entire lifecycle.

YOU

- ... lead a small team of specialized experts in a respectful work environment
- ... have a keen sense of your employees’ strengths and potentials, supporting their professional and personal development
- ... use your strategic thinking to shape and further develop the group’s strategy, ensuring transparency and taking responsibility for solution-oriented implementation
- ... coordinate the multi-project landscape within your group, overseeing capacity planning and prioritization of tasks and projects
- ... encourage and challenge collaborative teamwork focused on results, while continuously improving processes
- ... collaborate with our internal and external partners, understanding their needs and ensuring sustainable and efficient cooperation

WE

- ... value a completed degree in surface technology, materials science, or mechanical engineering, along with several years of professional experience and strong social and methodological competence
- ... are looking for an empathetic individual who brings motivating and exemplary behavior and enjoys interacting with people
- ... desire a confident leader with decision-making skills – someone who is clear in their approach, respectful toward others, and aligned with departmental and company goals
- ... look forward to having you on board if you’re excited about shaping our department and growing together in shared responsibility
