

APPRENTICE TRAINER MECHANICAL ENGINEERING (F/M/X)

The family-owned company Blum manufactures flap, hinge, pull-out and pocket systems that are installed in furniture all over the world. Did you know that over 60% of all apprentices trained to date still work at Blum? We have seen dual training as a successful model for over 50 years and thus offer many career prospects!

YOU

- ... train apprentices in the field of basic training for mechanical engineering and mechatronics
- ... independently organize your area of responsibility
- ... share responsibility for the content and achievement of training goals, both operationally and academically
- ... bring technical knowledge and commitment as a team member into daily work

WE

- ... value a good education – ideally, you have completed training as a **mechanical engineering technician** or **mechatronics technician**
- ... depending on prior knowledge, we provide a comprehensive training phase where you work independently with your apprentices on their tasks
- ... foster professional and social competence in our apprentices – you enjoy imparting your knowledge to young people
- ... are team-oriented and support each other in our tasks – you are a reliable and open-minded individual
