

DUAL ACADEMY MECHATRONICS

The family business Blum manufactures flap, hinge, pull-out, and pocket systems that are installed in furniture all over the world. Did you know that over 60% of all apprentices trained so far are still working at Blum? We have seen dual education as a successful model for over 50 years, offering many professional perspectives!

YOU

- ... are interested in mechanics and electronics, then mechatronics with its main modules automation technology and manufacturing technology might be the right choice for you
- ... will be accompanied every day by experienced instructors who will teach you the craft of mechatronics from A to Z
- ... assemble and install automation systems and commission them
- ... ensure a perfect production process within maintenance

WE

- ... place value on a good education – you have successfully completed your Matura (Austrian high school diploma)
- ... offer you an attractive, future-oriented alternative to university studies
- ... will train you to become a sought-after specialist in 3 years – you possess creativity and logical thinking
- ... are team players – you will collaborate with various professional departments
