

IT ORGANIZER FOR MES IN THE AREA OF INDUSTRIAL IT (F/M/X)

The family business Blum manufactures flaps, hinges, pullout, and pocket systems that are installed in furniture around the world. Did you know that at Blum we develop and build the necessary manufacturing equipment together with our partners, and ensure their operation from a data technology perspective with numerous partner departments?

YOU

- ... act as a bridge builder between IT and operational technology (OT)
- ... develop IT concepts with your colleagues for connecting our production equipment to various IT systems
- ... understand the needs of our partner departments and coordinate the implementation of industrial IT applications
- ... maintain an overview of our system and project landscape and support the team in managing our tasks
- ... enjoy, in addition to your operational responsibilities, also shaping the further development of internal processes

WE

- ... hope for an open and committed personality who enjoys working with people
- ... are looking for a team member with a solid education in the field of computer science or control technology
- ... count on a structured and analytical approach and your ability to quickly immerse yourself in new subject areas
- ... operate in a networking manner – openness and consulting expertise are among your strengths
- ... are internationally active – your communication skills in German and English are convincing
