

ELECTRICIAN IN LOGISTICS MAINTENANCE (F/M/X) – DORNBIRN OR BREGENZ

Blum manufactures flap, hinge, pull-out and pocket systems for furniture, which are supplied to over 120 markets. Did you know that we have fully automated warehouses with a height of over 30 metres? This enables us to ensure the perfect movement of our goods - from the delivery of raw materials to production and the distribution of our finished products.

YOU

- ... as an electrical engineer/control technician, you will be responsible for the maintenance of our fully automated warehouse systems (conveyor systems, high-bay warehouses, fully automated loading and unloading systems, etc.)
- ... search for possible defects in the event of electrical faults and rectify them independently
- ... document your findings to help us improve the logistics systems and share your expertise with other partner departments
- ... work in shifts with other electricians and mechanics

WE

- ... value good qualifications - you have successfully completed an electrical apprenticeship (building services engineering/electrical installation technology, etc.)
- ... are constantly on the move - the current expansion of our modern production facility offers you many development opportunities for specific specialist topics
- ... are looking for a team member who enjoys working in a team, is open to others and flexible
