

IT TRAINEE PROGRAM FOR IT INHOUSE CONSULTANT IN SUPPLY CHAIN MANAGEMENT SCM (F/M/X)

We manufacture flap, hinge, pull-out, and pocket systems for furniture, which are delivered to over 120 markets. In our thinking and actions, we orient ourselves towards our business processes, which are focused on our customers. Did you know that around 350 computer scientists take care of our modern IT environment? Our IT in-house consultants support our headquarters in Vorarlberg and our 32 subsidiaries with IT expertise.

YOU

- ... love to look beyond the horizon and are interested in overarching, integrative issues along business processes (process thinking)
- ... are a graduate of a university of applied sciences or have a degree in computer science or business informatics (WINF) with a maximum of 1-2 years of professional experience (education)
- ... like to work independently, enjoy variety, and along with your colleagues in the development teams and user support, are keen to implement solutions (Team IT)
- ... are ready to commit to a broad and comprehensive IT training program that follows an end-to-end business process (willingness to learn)

WE

- ... will inspire you with our challenges along our end-to-end business processes and gradually guide you based on your aptitudes and interests toward one of the end-to-end business processes, such as ForecastToStock (Planning & Manufacturing), RequisitionToPay (Procurement), or Tools & Equipment Processes (Tools and Plant Engineering) (process thinking)
- ... offer you a field of work that consists of about 60% communication and networking - bringing the right people together, moderating different interests, presenting your own ideas, developing solutions, discussing, weighing options, preparing decisions, this suits you (collaboration)
- ... focus our systems on SAP (IBP, ERP (future S/4), EWM) or on custom developments in the J2EE environment, depending on the business process (systems)
- ... value independent working in agile projects/teams in an international multicultural setting. You find it easy to communicate in English (work method)
- ... are integrated into various IT teams during your full-time training and gradually learn about organizational networks, professional topics, and IT technical issues, with the goal of becoming an IT in-house consultant (education)
