

QUALITY ASSURANCE TECHNICIAN POWDER COATING (F/M/X)

The family-owned company Blum manufactures flap, hinge, pull-out systems, and pocket systems that are used in furniture all over the world. Did you know that as a quality assurance technician, we have a very broad knowledge of products and processes? This helps us to make good decisions together with our interface partners (development, production, maintenance, and marketing).

YOU

- ... carry out laboratory tests on our products (salt spray test, material tests, etc.) and thus create an important data basis for decisions
- ... prepare test results and create quality reports, thus promoting the principle of continuous improvement
- ... accompany the release of raw materials in powder coatings in cooperation with marketing, quality engineering and suppliers
- ... provide support on topics relating to product quality and plant technology in manufacturing

WE

- ... value a good education - you have a completed technical education in the field of tool, machine technician, paint- or surface technician, etc
- ... are looking for an open and communicative personality, with professional experience in the field of quality assurance or powder coating
- ... we expect personal responsibility and good quality awareness
- ... are looking for a team member who is willing to take on responsibility and make a valuable contribution to the implementation of our continuous improvement
